

Transport and Main Roads Traffic Control (TC Signs)

Amendment register – September 2026

September 2026

Category	Sign	Description	Amended issue	Amendment	Comments
Flooding	TC1768	ADVANCED WARNING FLOODING WARNING LIGHTS	D	Amended	Pages 2 and 3 are removed as they were TraSiS designs that should not be provided. Notes 3 and 4 are modified as these elements are to be determined as part of sign support design. Note 5 which references Pages 2 and 3 is removed.
	TC1832	ROAD CLOSED DUE TO FLOODING	I	Amended	Pages 1, 2, 3, 4 and 5: - Additional note is added to consider flashing light assembly in sign support design. Page 6: - Reference to 180mm flashing lights has been removed, with 200mm flashing lights remaining. - Sign spacing has been removed as this is to be determined as part of sign support design. Pages 8, 9 and 10 are removed as they were TraSiS designs that should not be provided.

Category	Sign	Description	Amended issue	Amendment	Comments
Railway level crossing	TC1756	ADVANCE RAILWAY ACTIVE WARNING SIGN (RX-11)	C	Amended	Page 1: - Note 3 modified to specify the requirements for the use of this sign. - Note 4 modified to remove details about rail stiffeners as this is to be detailed during sign support design. - Note 5 revised to provide details about sign coordination with rail line. - Note 8 removed as this is to be detailed during sign support design. Page 2: - Values in Table 1 updated to reflect the values in AS1742 Part 7. - Notes 1 and 2 added to instruct users on where to get more information about how to install sign assembly. Page 3 is removed as it was a TraSiS design that should not be provided.
	TC2092	ADVANCED WARNING FLASHING LIGHTS	A	Superseded	Superseded by W7-Q02_4.

Category	Sign	Description	Amended issue	Amendment	Comments
